

## **Mayor's Acceptance Speech**

**Armand Toms – Monday 16<sup>th</sup> May 2016**

Although my second year as Mayor, I still wear these Chains of Office with the same pride and will do everything in my power to see Looe improve. Over the last year I have been supported by the Council Officers and Councillors and I appreciate this so much. We have made progress but there is still much to do as projects need to be completed. There are issues to be resolved such as the Town's Emergency Plan, the Traffic Regulation Order and the very important Neighbourhood Plan to be completed. It will be a busy year that will need the best efforts for us all to make sure that the right decisions are made that support the wishes of the community.

Thank you all for being here tonight as Rayna and I could not do this without you.
