

Police Report

The attached give an overview of the year on year comparison of crimes for Looe As of Sunday 20th May 2018 and the numbers are for the 12 months to that date

Total recorded crimes are 473 which is an increase of 88 as compared to the previous year.

Some of this increase is due to improved recording of offences, however the increase does also represent a real increase in offences being committed

The increase in sexual offences is also partly due to the recording of previously unrecorded offences due to victims feeling they can now come forward in the light of various national campaigns and the uncovering of high profile offenders.

There has been an increase in crimes related to violence to the person and this again reflects the national trend

Offences	12 months to 20/05	% Change
