A Notice of Motion signed by five Councillors to rescind resolution number: 40 of the Full Council Meeting of 5th July had been put before Council.
Councillor Smith explained the reason for the Notice of Motion stating that Councillor only nominations to both East and West Looe Trusts could be detrimental to both the Trusts and Council and could also cause friction, better liaison is needed and non-council applicants should be given the opportunity if they have expertise in key areas.
Councillor Mrs Hannaford argued that the original resolution was about Looe Town Council as a sovereign and elected body taking the lead and does not consider that this Notice of Motion is required.
Councillor Smith stated that this is about putting things on an even footing with opportunity for all.
After much further discussion Councillor Smith proposed that the Notice of Motion be approved, seconded by Councillor Bryan it was:

RESOLVED

With a vote of 5/3 against and 1 abstention to approve and accept the Notice of Motion to rescind Resolution No: 40 of the Full Council Meeting of 5th July 2010.

RESOLVED

.2 Mr Nick Pope

Mr Pope had applied for the vacant position as a Council nominated Trustee, left by Mr Ron Overd, to serve until 12th July 2011, the end of Mr Overd's Term of Office. Councillors Smith, Bryan and Gregory all stated that this nomination had been postponed long enough and that there should be no further postponements.

Councillor Smith proposed that Mr Pope be elected to serve as a Council nominated West Looe Town Trust Trustee until 12th July 2011 with the caveat that he re-applies as a new candidate for the position at the end of that term, seconded by Councillor Bryan it was:

Councillor Toms proposed that Councillor Mrs Hannaford be nominated, seconded by Councillor Smith it was:

RESOLVED

Unanimously to nominate Councillor Mrs Hannaford to serve as the Council representative on the Looe Valley Line Forum.

84. MATTERS FOR FURTHER DISCUSSION

.1 Polling Cards

The Mayor informed Council than an election had been called for to replace Messrs Joy and Rose. He pointed out that this discussion on whether or not polling cards should be paid for would result in an Agreement not a Resolution.

The cost of providing polling cards would be in the region of £1400.

Councillor Gregory stated that, as the percentage turnout of voters at the last election in August without polling cards had only been slightly lower than last year's election with polling cards, he considers the expense involved unjustifiable.

It was agreed with a vote of 5/3 against and 1 abstention not to pay for the provision of polling cards.

85. TO APPROVE THE ACCOUNTS FOR PAYMENT

To accept for payment the bills as listed and amounting to £8,448.24 and for the transfer of £11,000.00 to the Wages Account for August 2010.

1. INTRODUCTION: Justin Spreckley Chairman Looe Development Trust (LDT)

TQ for this opportunity to address the Council on the matter of continued financial support of the Looe IT Centre.

2. Background.

Following communications and encouragement to re-open the Looe IT Centre the Trust (LDT) has been in communication with the Looe Town Council (the Council) and it's Finance Committee over the continuance of the Centre and conditional funding of £7500 offered by the Council in December 2009. In Particular the drawdown of the second of three tranches of this funding.

Looe IT Centre reopened to the public in May 2010 as a volunteer run centre. The Council has requested a report on the current and project usage and the reality of obtaining funding from other organisations.

3. REPORT.

a. What is the benefit to date? (As at 1 Sep 10):

Opened 3 days a week from 10am to 4pm

Sessions: 314

Volunteers: 12 (for 669 hours)

Public, local businesses, tourists.

Community Drop-in Centre:

Not recorded in our statistics are those numerous beneficiaries who 'pop in' with questions (some technical) that are readily addressed: "How do I?" "Where can I? etc."

b. What benefit will it deliver in the future?

Continuance of volunteer involvement in the community.

Sessions forecast to be similar if not increasing (skills improvement courses).

Delivery of essential Business training & Services: Food Hygiene, Health & Safety courses.

Continuance of IT access for Tourism visitors (less over winter).

Value for money: Value is not directly financial, but is as a 'resource benefit' to the whole community.

c. Update since 10 September report to the Council:

Recruited 3 new volunteer staff. (Open 6 hours a day).

September income over 30% above that forecast has been achieved.

d. Funding Gained. UK On Line, My Guide, revenue stream has been accepted; a performance based training aid sign up and usage system for up to £1200. (Official sign up drive will start from 18-24 Oct).

e. New funding Bids submitted. A grant request for £7875 to the RDPE ECLAG.

f. Bids In Hand (Awaiting Completion)..:

The Foyle foundation
The Henry Smith charity
The Britannia Community Fund

g. Bids Under Detailed Scrutiny:

John Laing Charitable Trust
The Co-operative Membership Community Fund
BT Community Connections
Yapp Charitable Trust
The Erach and Roshan Sadri Foundation
Garfield Weston Foundation
The Big Lottery Fund
Lottery Good Causes
Over 200 Other funding sources investigated to date.

h. Funding Opportunities.

The 'Big Society' replacing RDA.....
Can more be done? Always; but volunteer effort and time dependant.

4. CHALLENGES.

The general availability of funds has changed since we made our funding bid in Nov 09 to the Council: No new RDPE bidding round is available for us to access (no change). The RDA is closing. SWT is closing. Fewer funds are available to bid for and timely bidding rounds are few: There are a lack of suitable fund holders to apply to, many will not even acknowledge bids or notify rejections. One of our biggest challenges is the Trust's success with other local projects, giving an accounting turnover of over £100K last year (as a sponsoring body). Getting past this screening takes negotiation and time!

5. WAY FORWARD.

A temporary closure whilst additional funds are secured sends the wrong message & will undermine the existing progress and awareness, lose volunteers and beneficiaries (learners / clients).

What does the IT Centre need from the Council?

The Council's continued financial backing and commitment to enable the benefits to continue and to enable the LDT to submit the additional applications for funding in hand.

6. Summary. In conclusion I would like to reiterate the Trust's appreciation of the support received from Looe Town Council to date in the reopening of the Centre, and

the benefit it is providing to the Community. Help us to keep the doors open for the year by granting the second tranche (£2500) of the Councils funding.

Yours Sincerely

Justin G Spreckley

LDT Grant Request – 12 Nov 09.

8. The Looe Development Trust requests a grant from Looe Town Council of £7500 to help maintain the Enterprise Centre facility for a year. The Trust will continue to explore donations from other grant funding bodies to re-establish a longer term future of this facility to the community.

LTC Reply – 4 Dec 09:

It was agreed that this is such a valuable asset for Looe and Looe Town Council will be happy to assist financially. The level of financial support offered is subject to Looe Development Trust securing funding elsewhere as indicated in your letter.

We would ask that you keep us informed to enable us to make a decision about the level of funding required from Looe Town Council and to inform us when you are hoping to re-open the facility.

LDT- Hon Treasurer – 10 June 09

Chairman Finance & Works Committee

Thank you for meeting with us regarding the Council's funding of the Enterprise Centre for the next twelve months.

We all felt that the meeting was conducted in a most constructive manner and that the co-operation between the Council and the Trust can move forward in the knowledge that both parties have the benefit of the Towns folk at the forefront of all that we do.

As requested I enclose a copy of the projected costs of running the Enterprise Centre for the next twelve months and should you have any queries whatsoever please do not hesitate to give me a ring, when I shall be pleased to expand on any of the figures that are unclear.

The granted funds will be used solely towards the costs in providing services to the community.

LDT -19 Aug 10 TQ & update

I am sure that the Council will appreciate that these are not the easiest times to be obtaining funding. However, the Trust has, and will continue to make every effort to secure the necessary funds.

The IT Centre has been open Tuesday to Thursday from 10 to 4pm delivering IT assistance and training to a wide range of people since reopening on 10 May, although reorganisation and staff training started in April. It has also provided down loading facilities for e-government and access to online forms. Including data transfer and uploading for locals and tourist. The centre has established and is pursuing its link with Laity House in Liskeard for our own low level local training and for their higher level delivery. It has also proved most beneficial to individuals with IT technical queries, a service not recorded in our statistics.

To date expenditure and income has been much as forecast; greater use of the photocopying facilities (as an income generator) is still required and being pursued. To date there have been 8 advertising campaigns: including door step delivery to 700 households and businesses, e-mails, poster campaign, Local papers, face to face and targeted mail shots (old customers, businesses, local organisations and charities).

Given the current funds held, the Centre will run out of funds in October 2010, hence this request for release of the second tranche of funding, to enable continuance of the benefits the Centre is delivering into 2011.

As stated in our letter of 19 August 2010 other funding to support the Centre to enable its reopening and running costs has been supplied by Looe Development Trust, with a contribution of £6,000 (the majority of the Trust's slowly accumulated Development Fund) and Looe Town Council's £3000 grant stage payment.

The Trust has and continues to make every effort to secure the necessary funds for the continuation of the Looe IT Centre as a facility of benefit to the community. The Trust applied to the Lloyds TSB foundation and has been rejected but is seeking clarification that the Trust is "no longer eligible" since Lloyds TSB has funded other similar projects throughout Cornwall & the UK. The Trust did also approach East and West Looe Town Trusts, but did not secure funding from these. In hand are two bids to the RDPE Programme (S.E.Cornwall Local Action Group). We will keep you apprised of their progress.

Statistics on the use of the centre from May to August 2010 are as attached and in summary below:

Sessions: 314
Volunteers: 12 (for 669 hours)

Equipment available: 8 Computers (incl disabled facilities), printers, scanners, Fax, laptops etc.

Courses offered: 20+, tailored to learners needs. (See attached Flyer)

Services offered: Photo Copying, IT advice, Laminating, Faxing, Meeting Room, Web Access, PA Equipment Hire, projectors. (See Attached Flyer)

Appendix 'C'

Looe Town Council Report 26.9.10 Cllr Edwina Hannaford

Downs View

Thanks to Cllr Toms and Stephen Foster Community Network Manager well attended by over half of the properties

Actions - Conduct a land registry search

Contact Prohelp who may be able to work with an association on the legal aspects

Contact the Private Road Company and ascertain on what basis they would work with a residents association if formed. Source examples of residents association ie Bay View Road

Residents to check their deeds and insurance cover

Further meeting at end of October TBC Invite Mrs Masson from Pendrym Road residents association to the next meeting to learn from her experience in East Looe. Collate reasons why it is in residents interests to contribute to be collated ie Could increase value of property, residents may be at risk of liability from accident or injury, failure of the road could mean no access and a large liability to householder that would only increase in time.

Looe/Polperro Seasonal bus service

I have an interim report re the seasonal service. There will be a full report at the end of October but first results show it has been a welcome success. Western Greyhound didn't ask for a subsidy in July and August as they thought it would be a viable commercial service. First reports show there was average 100 passengers per night. The good news is that September figures show an average of 93 passengers per night. This would indicate that it is a viable commercial service in September as well which bodes well for the future.

40% were on the last bus (2320 Polperro – Looe Bay). Overall. 69 passengers travelled on buses from Polperro and 24 on buses to Polperro.

Locals 27% compared with Visitors 73% Of course full stats from May may show a different profile of passengers outside the main season.

Journey purpose: Restaurant/pub/evening out 47 (85%), work 3 (5%), visiting friends 2 (4%)

How did you find out about it? Timetable at bus stop 23%, Timetable at holiday location 44%, Word of mouth 29%, chance/saw bus 4%, press/website Nil

How would you have made the journey if the bus service hadn't been there? Taxi 47%, Wouldn't have made journey 22%, Car 20%, Walk 11%

Parking consultation

West Looe Hill – I do believe the residents why say there is speeding unfortunately the data gathered in June did not show there was a big problem, so I have requested another Speed visor check in consultation with residents

Also requested is a Community Speed watch to act as a deterrent. Asking for residents to come forward to take part

NB The Police did a speed watch on West Looe Hill on Tuesday morning – a very quick response. No vehicle was over the 30mph limit.

Princes Square - very much opposed to any changes, the traffic working group will have some very hard decisions to make. If any part of the proposed traffic regulation order is likely to attract opposition then dropping it much be considered so we can move forward on issues that do have universal support.

West Looe loading bays – problem of the inactivity time is only 5 minutes, this is set Nationally. Problems arise because of the geography of Looe that it can take more than 5 mins for an elderly or inform visitors to check in. I will be writing to our MP to ask her to take this issue up Nationally and request this Council does the same. We need some flexibility.

Public Conveniences

I am not happy that money that was identified for public convenience refurbishment of Talland, Seaton, Guildhall & Seafront carried forward from Caradon District Council is now at risk in view of the Cornwall Council public convenience review. I have sourced the full council resolution from 2005 which lists when the savings from the last review will be reinvested in refurbishments. I am very unhappy that this money could be lost as there is to be another review. The money identified said to be around £90k is Caradon area tax payers money afterall.

Cultural Green Paper

I advise residents to read the Cultural Green Paper and respond to the consultation which is on line via Survey Monkey. It is important that we protect and develop the cultural assets of Cornwall. Looe's economy, let alone our community is based on our culture and history. Perhaps there could be link on Council website.

Keep Cornwall Whole

There is a Rally on 10th October Saltash 2pm under the Tamar Bridge, all welcome to keep the profile up of the potential Devonwall constituency.
