2. We will look at how to reduce energy and water consumption and consider carefully where we buy our energy, consistent with this declaration on all property and land we own.
3. Over the remainder of this administration, as opportunities arise, it will review policies, procedures and contracts to minimise the council's impact on the local environment and the planet;
4. Engage with residents and others to learn and strive to reduce our carbon footprint, including considering the LGA guide to Councillors.
5. Show individual climate leadership & take the '10 Climate Pledges' to reduce your carbon footprint & share the lessons with residents.
