Just a reminder.

- Stay at home where ever possible
 - If you do need to go out maintain social distancing at ALL times (2 Meters apart from others) Use masks and gloves if you have them **but remember they will not protect you in the same way as social distancing.**
 - Wash your hands thoroughly and regularly (use hand sanitiser if you have it)
 - If you need to cough or sneeze do it in to a tissue and dispose of it safely or into your arm to prevent aerosol spread to others
 - Do Not create or attend social gatherings
 - Stay at home if you have either:
 - a high temperature – you feel hot to touch on your chest or back
 - a new, continuous cough – this means you've started coughing repeatedly
 - **Do not go to a GP surgery, pharmacy or hospital.**
- You do not need to contact 111 to tell them you're staying at home.**
