

Policy & Strategy Committee Report December 2022

Following on from a previous report the committee has now put forward its proposal for restructuring the Council organisation. The proposals for the appointment of a further admin assistant were accepted as was the job description for a new Town Clerk. The proposal for the appointment of a commercial/project manager were put on hold for the time being.

The Staffing Committee has now appointed an HR consultancy to help find and select a new Town Clerk. Discussions are also taking place regarding the potential appointment of a 'locum' or interim Town Clerk until a permanent appointment can be made.

The development of the priorities list has slowed somewhat in the current month due to other priorities, however work on the development of the individual action plans will recommence in earnest in the coming weeks as this is a critically important element in the achievement of the future goals of the Council.
