

Highway maintenance scheme • November 2023

Looe Carriageway Repair Works

As part of our highways maintenance work, a road closure will be in place on the B3253 between No Mans Land and St Martin from **Monday 13th to Friday 24th November** while carriageway repair and drainage investigation work takes place.

The road will be closed between the hours of **9:30am and 4pm**. We need to implement these measures to give our teams a safe working zone and protect road users while the work is carried out. We will start at St Martin and work our way toward No Man’s Land.

We will have marshals on site to support residents and businesses needing local access. All through traffic will need to follow the diversions in place.

To prevent delays, and to enable us to maintain emergency access please do not park on, or obstruct the highway during working hours.

Delivered by **Thank you for your patience while these works take place.**

Diversions

Signs will be placed at major junctions prior to the closure on the key routes to take non-through traffic away from the closure and keep traffic disruption to a minimum.

Diversion routes have to be suitable for the type of traffic that would normally use the route. We appreciate they can sometimes be quite lengthy, but in order to carry out the works safely to protect our operatives and road users we need to implement these measures

Access arrangements

Access for residents and businesses will be maintained through gateways managed by traffic marshals. Residents will need to stop at the gateways and our staff will help you to get into, or out of the roadworks site safely using the right route.

Please be supportive by respecting and responding to any speed restrictions and the safety instructions given by staff.

If our teams need access or have to move machinery out of the way there may be significant delays.

We will always do our best to accommodate day-to-day requirements of people affected by our works, and access will be maintained as much as possible for those people directly impacted by the closure.

Emergency access will be maintained at all times.

Working safely

Please be aware of the following hazards while the work is taking place.

- Uneven road surface where the old surface has been removed
- Raised manholes, gullies, and other service boxes
- Varying kerb heights when stepping off the footway

All of our sites will be appropriately risk assessed and have strict safeguarding measures in line with current Health and Safety and Public Health England guidance to ensure the safety of residents and our staff.

Notifications

Please note this information is correct at the time of circulation but is subject to change at short notice, especially in periods of poor weather.

Resurfacing work is weather dependant and may be delayed by cold temperatures and heavy rain.

If works are postponed or cancelled, we will do our best to update the advance notice boards on our sites.
